```

The diagram illustrates a file dependency structure. At the top is a grey box containing the path to a header file: `D:/gitt/MicrochipFor32/bsp_MPU6050/inv_mpu_dmp_motion_driver.h`. Below this box are two white boxes, each containing a path to a source file: `D:/gitt/MicrochipFor32/bsp_MPU6050/inv_mpu.c` on the left and `D:/gitt/MicrochipFor32/bsp_MPU6050/inv_mpu_dmp_motion_driver.c` on the right. Two blue arrows point from the source files up to the header file, indicating that both source files include or depend on the header file.
